Air transportation of Liko lifts and the batteries

The batteries used and mounted on our lifts are of the type NON-SPILLABLE batteries authorized for air transportation as no dangerous goods and checked baggage in passenger aircraft according to IATA Dangerous Goods Regulation for Packing Instructions, No 800 and special provision A67.

Batteries on Liko AB lifts meet the above regulations and are found on the following Likolifts below:

Lift name	Battery marking on lift	Battery type
LikoLight	LINAK Type BAJ1	Rocket ES 2.9-12
Uno 100/102 EM/ES/EE	LINAK Type BAJ1	Rocket ES 2.9-12
Golvo 7000/7007 ES	LINAK Type BAJ1	Rocket ES 2.9-12
Sabina, Sabina Comfort, Sabina II EE/EM	LINAK Type BAJ1	Rocket ES 2.9-12
Viking 300/XL/L/M	LINAK Type BAJ1	Rocket ES 2.9-12
Viking XS/S	LINAK CBL01	Rocket ES 2.9-12

Best regards
